ESTIMATED ACTUAL & PROPOSED BUDGET

Part A – The REVENUE section is designed as a matrix to provide two types of information about resources. Across the top of the form are listed a number of potential sources of funds. Down the side are time periods during which the funding is expected to be available. Part B – The EXPENDITURE section is designed for you to indicate the amount of money from each source listed at the top of the page to be used for each of your budget line items. No specific line items have been pre-printed on the form. Please use the expenditure categories that you use in your agency’s budget. We hope that this will simplify your work by eliminating the need to determine how your budget categories compare to the County’s. All resources and expenses for the agency or project must be included in Sections A and B. Total resources and total expenditures should be equal. If these are not equal, please explain why the difference exists.

ESTIMATED ACTUAL FOR CURRENT FISCAL YEAR (FY 2022) – Estimate the actual resources and expenditures of the agency or program for the current year which will end June 30, 2022.
