***Soil Testing 101* - Thursday, March 30, 6:00 - 8:00 PM**

The health of your soil determines the health of your plants. Learn to take a soil test and to read and interpret the results in order to ensure the health of your garden. Both synthetic fertilizers and organic amendments will be discussed.

***Pest Control in the Home Garden* - Thursday, April 6, 6:00 - 8:00 PM**

How can you stay ahead of common pests in your garden? Learn measures to prevent pests and common issues in both the vegetable and flower garden.

***Nature in the Garden* - Thursday, April 27, 6:00 - 8:00 PM**

Learn strategies to work with nature for growing an organic vegetable garden and how to incorporate native plants in your garden. You can manage your yard work and create a more beautiful and natural environment.

For accommodations for persons with disabilities, please contact our office at 336-703-2850 no later than five days before the event.
